Active in participating in activities for health education and health promotion at local, national and ecological levels; F. Committed to protecting the health of the individual and community; and G. Role modelling for health optimisation.

Competence area 2: Health Promotion and Health Education			
Ability	Knowledge	Skills	Attitude
(7) Provide leadership in developing health promotion capacities of individuals and teams.			

Competence area 3: Management and Leadership			
Ability	Knowledge	Skills	Attitude
<p>An advanced practice nurse (Gynaecology) is able to:</p> <p>(1) Demonstrate effective managerial and leadership skills in the promotion of high quality standards and quality improvement in women's health;</p> <p>(2) Assess the need for change and lead changes to make a positive impact on women's health / gynaecological care and service delivery systems;</p> <p>(3) Participate in health care policy formulation in partnership with other health care team members and community sectors;</p> <p>(4) Manage clinical gynaecological risks and crises, and emergency situations specific to advanced gynaecology practice area;</p> <p>(5) Build the culture and systems to ensure safe and effective care delivery and work environments;</p>	<p>An advanced practice nurse (Gynaecology) needs to have knowledge of:</p> <p>A. Advanced management and leadership in health care;</p> <p>B. Concepts associated with the vision, goals, objectives, strategies and governance, and their implications for management;</p> <p>C. Policy development, implications and review processes;</p> <p>D. Politics in health care and nursing;</p> <p>E. Resource management; and</p> <p>F. Risk management and quality improvement in advanced gynaecology nursing practice.</p>	<p>An advanced practice nurse (Gynaecology) needs to have skills in:</p> <p>A. Applying advanced management and leadership in health care;</p> <p>B. People and resource management;</p> <p>C. Project management;</p> <p>D. Building cultures for positive work environment, morale and performance to support advanced practice by empowering staff to assume increasing responsibility for gynaecological clients;</p> <p>E. Political astuteness in influencing and lobbying;</p> <p>F. Conflict resolution, negotiation and mediation; and</p> <p>G. Risk management and quality improvement for advanced gynaecology nursing practice.</p>	<p>An advanced practice nurse (Gynaecology) needs to have the following attitudes:</p> <p>A. Positive towards challenges;</p> <p>B. Proactive and assertive with new challenges;</p> <p>C. Supportive and facilitative to colleagues and clients;</p> <p>D. Open-minded and objective in relation to change, adopting a broad vision and global view;</p> <p>E. Collaborative in building collegiality and team optimisation;</p> <p>F. Fair in addressing equity;</p> <p>G. Decisive in management decisions; and</p> <p>H. Accountable and responsible for advanced gynaecology nursing practice.</p>

Competence area 3: Management and Leadership			
Ability	Knowledge	Skills	Attitude
<p>(6) Lead the team to facilitate team processes and work across sectors and professions to cultivate a caring and supportive culture;</p> <p>(7) Optimise resource utilisation and facilitate the provision of an accessible, effective and efficient service; and</p> <p>(8) Enhance staff development and contribute to manpower planning to ensure smooth service operations.</p>			

Competence area 4: Evidence-based Practice and Research			
Ability	Knowledge	Skills	Attitude
<p>An advanced practice nurse (Gynaecology) is able to:</p> <p>(1) Utilise research findings to evaluate current practice and to identify service and practice areas for further improvement;</p> <p>(2) Appraise critically and reflectively health care research findings to support evidence-based practice;</p> <p>(3) Identify issues to initiate and participate in nursing research;</p> <p>(4) Lead and support the review and development of evidence-based guidelines, protocols and clinical pathways;</p>	<p>An advanced practice nurse (Gynaecology) needs to have knowledge of:</p> <p>A. Best available evidence and new knowledge in advanced gynaecology nursing and women's health practice;</p> <p>B. Relevance and appropriateness of various research designs in relation to the study objectives to generate evidence to inform practice; and</p> <p>C. Implementation science to translate evidence into practice.</p>	<p>An advanced practice nurse (Gynaecology) needs to have skills in:</p> <p>A. Critical analysis and interpretation of research findings, and dissemination of research outcomes;</p> <p>B. Application of evidence to substantiate / negotiate / influence advanced women's health /gynaecology nursing and care interventions; and</p> <p>C. Using evaluation tools to assert and facilitate evidence-based changes.</p>	<p>An advanced practice nurse (Gynaecology) needs to have the following attitudes:</p> <p>A. Proactive in initiating evidence-based practice and research;</p> <p>B. Inquisitive in identifying knowledge / practice gaps and new horizons for care processes;</p> <p>C. Creative and innovative; and</p> <p>D. Scientific in critically reviewing and adopting evidence-based findings.</p>

Competence area 4: Evidence-based Practice and Research			
Ability	Knowledge	Skills	Attitude
<p>(5) Use best evidence to enable practice innovation, adoption of advanced technology and shape decision making; and</p> <p>(6) Benchmark various care programmes with evaluative outcome measures.</p>			

Competence area 5: Personal and Professional Development			
Ability	Knowledge	Skills	Attitude
<p>An advanced practice nurse (Gynaecology) is able to:</p> <p>(1) Accept accountability for increased responsibility in the advanced gynaecology practice area;</p> <p>(2) Maintain competence as an advanced gynaecology practice nurse, identify their own professional strengths and limitations, and promote continuous development in advanced practice area;</p> <p>(3) Uphold nursing as a profession and act as a key member of the health care team;</p> <p>(4) Supervise, educate and support the socialisation of nurses, act as a role model and set exemplary standards for professional behaviours;</p>	<p>An advanced practice nurse (Gynaecology) needs to have knowledge of:</p> <p>A. Philosophy and scope of practice in advanced gynaecology practice area;</p> <p>B. Professional organisations facilitating the growth of the profession and their members; and</p> <p>C. Healthcare landscape, legislation and political climate for maximising advanced gynaecology nursing practice.</p>	<p>An advanced practice nurse (Gynaecology) needs to have skills in:</p> <p>A. Maintaining their own holistic well-being;</p> <p>B. Critical self-reflection for continuous gynaecology nursing care improvement;</p> <p>C. Coaching and mentorship to nurture and prepare the next generation of nurses;</p> <p>D. Public speaking and presentation; and</p> <p>E. Professional networking and exploration of potential opportunities for intra- and inter-disciplinary collaboration.</p>	<p>An advanced practice nurse (Gynaecology) needs to have the following attitudes:</p> <p>A. Enthusiastic and positive towards life, human beings, society and health, safeguarding optimal health and promoting quality of life;</p> <p>B. Visionary and passionate towards advanced nursing practice;</p> <p>C. Open to learning and extending their horizons;</p> <p>D. Committed to continuous learning in advanced nursing practice; and</p> <p>E. Supportive of professional organisations which develop advanced gynaecology nursing practice.</p>

Competence area 5: Personal and Professional Development			
Ability	Knowledge	Skills	Attitude
<p>(5) Articulate and promote the image and roles of advanced gynaecology practice nurses to facilitate collaboration and referrals in professional and community contexts; and</p> <p>(6) Provide psychological support to peers in dealing with grief and bereavement.</p>
